

Fort Washington Large Cap Focused Equity

Highlights

- The key driver of the market was the continued recovery in corporate profits combined with an added boost on reports of a plan to cut the corporate tax rate.
- The sector that led the market higher was Information Technology while Telecommunication Services, Materials, and Energy also increased more than the broader index.
- Sectors that lagged their respective peers included Consumer Staples, Consumer Discretionary, Real Estate, and Utilities.
- While underperforming the index, the Large Cap Focused Equity strategy returned 3.28% (gross) during the quarter.

Market Overview

Along with other risk assets, the U.S. equity indices continued to broadly move higher in the third quarter of 2017, as the S&P 500 Index returned 4.48% to another record high. The key driver of the stock market's performance was the continued recovery in corporate profits combined with an added boost on reports that the White House and Congressional Republican leaders were coalescing around a plan to cut the corporate tax rate. The sector that led the market higher was Information Technology while Telecommunication Services, Materials, and Energy also increased more than the broader index. Consumer Staples declined the most during the quarter while Consumer Discretionary, Real Estate, and Utilities also lagged the broader index.

Portfolio Activity

During the quarter, we increased weight in Information Technology while we decreased weight in Consumer Staples and Consumer Discretionary. Cash holdings declined from 4.7% in the second quarter to 2.3%. There were no additions or deletions to the strategy during the third quarter.

As the third quarter of 2017 came to a close, the strategy had an overweight in Consumer Discretionary, Financials, Information Technology, and Real Estate sectors and an underweight in the Consumer Staples, Health Care, and Energy sectors. The weights in the Materials, Industrials, and Telecommunication Services sectors were generally equal to the index. No positions were held in Utilities at the end of the quarter.

Within the Large Cap Focused Equity strategy, the sectors that outperformed relative to their respective peers were Materials,

Financials, and Health Care. Sectors that lagged relative to their respective peers include Industrials, Information Technology, Real Estate, and Telecommunication Services. Stock selection accounted for the underperformance. Sector allocation was a positive contributor given the underweight in Consumer Staples and the overweight in Information Technology stocks. Cash holdings detracted slightly from performance given the positive move in the market.

The stocks that contributed the most to performance during the quarter were a vertically-integrated supplier of agricultural products and services, a leading pharmaceutical company, and a multinational biotechnology company. Stocks detracting most from performance included a leading industrials conglomerate, a diversified consumer food, beverage, and pet food company, and a media holding company that benefits from customer captivity and economies of scale.

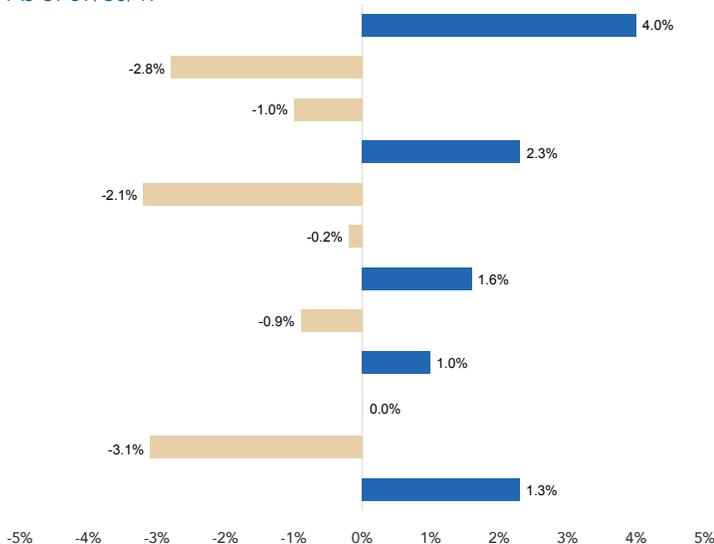

Top Ten Holdings

Name	Sector	Layer of Value	% of Portfolio
Berkshire Hathaway	Financials	Franchise Value	7.3%
Alphabet	Information Technology	Franchise Value	4.4%
Amazon.com	Consumer Discretionary	Franchise Value	3.8%
Apple	Information Technology	Franchise Value	3.8%

Outlook

The strategy is still constructed with mostly higher quality, higher barrier businesses that are currently generating attractive returns on capital. As a result, the weighted average return on capital (ex-financials) for the strategy is currently 869 basis points above its cost of capital. Those returns on capital are protected, as 100% of the strategy is invested in businesses that we believe have stronger barriers to entry. Looking forward, the price to intrinsic value of \$0.82 implies healthy upside in a market that is, in our opinion, fairly valued with little margin of safety.

We believe we have a solid process that has shown the ability to work over a full market cycle, while being patient and holding to our convictions through short periods of underperformance. Our philosophy has remained unchanged, and we continue to focus on buying businesses that are priced for the late stage of the business life cycle (i.e., priced for declining returns on capital) whose excess returns on capital are more protected by a stronger barrier to entry.

¹2013 returns are partial-year returns, reflecting the composite inception date of 10/01/13. ²The 3-Year annualized ex-post standard deviation is calculated using monthly returns to measure the average deviations of returns from its mean. ³Dispersion is not calculated for years in which the composite contains five portfolios or less. Dispersion is calculated as the equal weighted standard deviation of quarterly returns for those portfolios held in the composite during the full measurement period. The benchmark for this composite is the Standard and Poor's 500 Index.

The Fort Washington Large Cap Focused Equity strategy is a large-cap concentrated, value oriented strategy that invests in businesses with a market capitalization greater than \$5 billion. The strategy invests in businesses with strong barriers to entry that have the capability of generating excess returns on capital. The strategy looks to take advantage of irrational human behavior by buying large cap securities that have been mispriced by the market. We will invest in companies that have limited absolute downside and large margin of safety on the upside. The objective of the Large Cap Focused Equity strategy is to outperform the S&P 500 Index over a full market cycle.

All fee-paying, fully discretionary portfolios managed in the Large Cap style, with a minimum of \$1 million under our management, are included in this composite. Effective 01/22/14, the Large Cap strategy fee schedule is as follows: 0.65% on the first \$25 million, 0.60% on the next \$25 million, 0.55% on the next \$50 million and over.

The benchmark for this composite is the Standard and Poor's 500 Index. Portfolios in this composite include cash, cash equivalents, investment securities, interest and dividends. Cash is maintained, within each separately managed account segment, in accordance with our asset allocation ratio. The U.S. dollar is the base currency. The specific securities identified and described do not represent all of the securities purchased, sold, or recommended.

Returns are presented gross and net of management fees and include the reinvestment of all income. Gross returns will be reduced by investment advisory fees and other expenses that may be incurred in the management of the account. Net of fee performance was calculated using the actual management fees charged. Individual portfolio returns are calculated on a daily valuation basis. Past performance is not indicative of future results.

Fort Washington Investment Advisors, Inc. (Fort Washington), a wholly owned subsidiary of The Western and Southern Life Insurance Company, is a registered investment advisor and provides discretionary money management to a broad range of investors, including both institutional and individual investors. Assets under management include all portfolios managed by Fort Washington and exclude assets under management by and marketed as its Private Equity business unit.

Fort Washington claims compliance with the Global Investment Performance Standards (GIPS[®]) and has prepared and presented this report in compliance with the GIPS Standards. Fort Washington has been independently verified for the periods 7/1/94 – 12/31/15. A copy of the verification reports are available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.
